Specialists in 19th century Russian and Old Master pictures. With a collection of over 600 works, the gallery has an ambitious exhibition schedule, ranging from Russian Orientalism (currently running) to an exhibition of 100 Old Master paintings by artists represented in the Hermitage Collections (from November 2009).

Художественная Галерея Сфинкс специализируется на Русской Живописи Девятнадцатого Века и работах Старых Мастеров. Обширная коллекция галереи насчитывает более 600 полотен, поэтому график выставок довольно напряженный, начиная от Русского Ориентализма (проходит в данный момент) до выставки работ 100 Старых Мастеров, многие из которых представлены в Эрмитаже.

Luba Sterlikova belongs to a new generation of artists - Russian by birth and universal by mentality. Her art reflects her cosmopolitan background, incorporating the East's alluring, vibrant colours and forms and patterns of the West. She unites the sensual with the spiritual and creates images that can be interpreted in different ways and on different levels.

В творчестве Любы Стерликовой гармонично сочетается чувственное и духовное, создавая образы, открытые для интерпретации.
